Work Experience

Chronic Disease Coordinator, LPN & Diabetic Educator- October 2013 to April 2017

Tanner Health System - Carrollton, GA

Community health clinical lead for all health assessments, patient care, and medical interventions. Acquired accreditation from the American Association of Diabetic Educators, Diabetes Self-Management Education Program for Tanner Health System (THS). Facilitated evidence-based interventions and prevention methods for diabetic patients admitted to Tanner Health System's hospital facilities. Delivered medication administration teaching, health coaching, and researched best practices for education implementation. Delivery of all community health program training internally and in the community with a 99% satisfaction training evaluation status. Management of Community Clinical Linkage objectives and

evaluation of the CDC's Partnership to Improve Community Health, \$2.6 million grant. Manage the referral process for all evidence-based community health programming, physician reporting, data collection, and evaluation. Developed adult public health programming and supervised the planning, implementation, and evaluation. Assisted in strategic planning for THS Community Benefit and need-based community initiatives.
